

# New start-up businesses 8 things to consider

Consider the structure of your business, are you a Sole Trader, Partnership, Limited Liability Partnership or Limited Company?

Have you opened a business bank account? An associated business credit card can also help to manage your day to day expenses.

Do you have an understanding on how VAT registration will affect your pricing and cash flow?

If you're intending to employ staff ensure you've considered all HR requirements, whilst taking into account your payroll. We provide a Payroll service generating you free time to focus on your business.

Cloud bookkeeping packages will ensure that your system is compatible with HMRC filing systems and provide you with a good digital platform and bring efficiencies.

Thought about your service pricing? This is the single most important factor in making money.

Do you need to raise finance to set up? Bank loans, grants, overdrafts, inject own funds.

Don't go it alone – build your business and professional network of support early on to ensure you are well informed.
